Annotations	<p>The DEKiF project was carried out in cooperation between the DZHW, the Heinrich Heine University Düsseldorf (HHU) and the Stifterverband für die Deutsche Wissenschaft. The study followed a triangulating mixed methods design: It consisted of a quantitative survey (DZHW Hannover), five case studies (HHU Düsseldorf, DZHW Berlin, Stifterverband für die Deutsche Wissenschaft), and a bibliometric analysis (DZHW Berlin).</p> <p>Two data packages will be made available for scientific reuse purposes. First, the data of this data package: two case studies were collected at HHU Düsseldorf. Secondly, the quantitative survey and metadata were obtained in the course of the DEKiF survey, a large-scale, representative survey of principal investigators and spokespersons of DFG research associations.</p> <p>The qualitative partial survey can be found here: https://doi.org/10.21249/DZHW:decquali:1.0.0</p>
