<p>Population</p>	<p>Survey 1:</p> <p>The EUROSTUDENT target group includes all students who are at the time of observation (semester/term) enrolled in any national study programme regarded as higher education (not tertiary!) in a country. Usually, that corresponds to ISCED (2011) levels 5, 6 and 7 (e.g. short-cycle programmes, Bachelor/Master programmes, traditional diploma programmes, Lizentiat, national degrees in medicine etc.) which – in the national context – would normally be considered higher education.</p> <p>Deviation by country</p> <p>Short national degrees, ‘other’ postgraduate degrees and ‘other’ degrees (e.g., single subjects) do not exist in Austria. Short-cycle programmes are not considered to be higher education and are therefore not included in the sample.</p> <p>Survey 2, 14, 16:</p> <p>The EUROSTUDENT target group includes all students who are at the time of observation (semester/term) enrolled in any national study programme regarded as higher education (not tertiary!) in a country. Part-time studies were only introduced in 2017 in a pilot scheme for Master programmes (erhvervskandidatuddannelse), on special terms for people in parallel employment. As the first students in such programmes started in September 2018, part-time students only make up a very minor part of the student population and were thus not included in the sample.</p> <p>Survey 4:</p> <p>The EUROSTUDENT target group includes all students who are at the time of observation (semester/term) enrolled in any national study programme regarded as higher education (not tertiary!) in a country. Net Sample Size	<p>Survey 1: n = 42,325</p> <p>Survey 2: n = 1,840</p> <p>Survey 3: n = 9,615</p> <p>Survey 4: n = 2,760</p> <p>Survey 5: n = 7,676</p> <p>Survey 6: n = 7,535</p> <p>Survey 7: n = 19,860</p> <p>Survey 8: n = 3,358</p> <p>Survey 9: n = 719</p> <p>Survey 10: n = 16,275</p> <p>Survey 11: n = 7,006</p> <p>Survey 12: n = 13,616</p> <p>Survey 13: n = 2,122</p> <p>Survey 14: n = 10,374</p> <p>Survey 15: n = 5,129</p> <p>Survey 16: n = 19,637</p>

Response Rate	<p>Survey 1: 14 %</p> <p>Survey 2: 1 %</p> <p>Survey 3: 26 %</p> <p>Survey 4: 8 %</p> <p>Survey 5: 5 %</p> <p>Survey 6: 7 %</p> <p>Survey 7: 10 %</p> <p>Survey 8: 4 %</p> <p>Survey 9: 14 %</p> <p>Survey 10: 9 %</p> <p>Survey 11: 27 %</p> <p>Survey 12: 2 %</p> <p>Survey 13: 3 %</p> <p>Survey 14: 47 %</p> <p>Survey 15: 17 %</p> <p>Survey 16: 6 %</p>
Remarks on the Surveys	<p>Survey 14:</p> <p>The anonymised data from Norway is provided as a separate datafile because of the following reason. Dissemination of the EUROSTUDENT VII microdata is subject to the Norwegian Statistics Act. As such, the file was treated as a public use file (and not as a scientific use file) and was fully anonymised to ensure confidentiality of participants' responses. To prevent reidentification of individual respondents' records, the microdata set has been perturbed. This perturbation method perturbs (or disturbs) information on for example students' background characteristics (such as age), amongst others. More specifically, an invariant Post-Randomization Method (invariant PRAM) was employed on the data. For more information on this method and its consequences, we refer to the information provided by the Norwegian national research team, which is included as a documentation material in FDZ's meta-data package</p>
