## 1.711 bocc06s\_g1v1r (to secure fut. career prospects: other, namely)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable contains the additional open responses gathered on other opportunities used to secure future career prospects (Variable bocc06r\_v1), which could not be assigned to the given categories, in coded form. Using the open responses (or based on lists already made from the answers of previous cohorts) a code list was created.

Panel Variables: aocc06s\_g1r

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 1.5

Question text: There are many ways to secure or improve your future career prospects: which opportunities have you taken?  
Other, please specify

## 1.724 bski01k\_v1 (important for career: oral articulateness)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: ordinal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Panel Variables: aski01k, cski01k\_v1

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 1.8  
 Question text: How important are the following skills and competencies for your current (or last, if you are currently not in employment) professional activity (column A)? To what extent do you already possess these skills and competencies (column B)?  
 Importance for professional activity  
 Oral skills

## 1.730 bski01q\_v1 (important for career: application of knowledge)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: ordinal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Panel Variables: aski01q, cski01q\_v1

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 1.8  
 Question text: How important are the following skills and competencies for your current (or last, if you are currently not in employment) professional activity (column A)? To what extent do you already possess these skills and competencies (column B)?  
 Importance for professional activity  
 Ability to apply existing knowledge to new problems

## 1.741 bski03c (present: methodological knowledge)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: ordinal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Panel Variables: cski03c

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 1.8  
 Question text: How important are the following skills and competencies for your current (or last, if you are currently not in employment) professional activity (column A)? To what extent do you already possess these skills and competencies (column B)?  
 I already possess  
 Knowledge of academic methods

## 1.752 bski03n (present: economic skills)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: ordinal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Panel Variables: cski03n

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 1.8  
 Question text: How important are the following skills and competencies for your current (or last, if you are currently not in employment) professional activity (column A)? To what extent do you already possess these skills and competencies (column B)?  
 I already possess  
 Business knowledge

### Frequencies

## 1.758 bski03t (present: independent working)

### Properties<sup>1</sup>

Data type: numeric

Scale level: ordinal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

Panel Variables: cski03t

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 1.8

Question text: How important are the following skills and competencies for your current (or last, if you are currently not in employment) professional activity (column A)? To what extent do you already possess these skills and competencies (column B)?  
I already possess  
Ability to study/work independently

### Frequencies

## 1.794 bfec13i (PhD financing: personal resources, savings)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 2.5

Question text: How do/did you finance your PhD?  
From own resources, savings, grants from third parties

### Frequencies

## 1.805 bfec03i\_v1 (motivation for PhD: subject specialisation)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: ordinal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Panel Variables: afec03i

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 2.6  
 Question text: How important are/were the following motivations for doing your PhD?  
 To get professionally qualified in a special field

### Frequencies

## 1.810 bfec03o\_g1v1r (motivation for PhD: other, namely)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: nominal  
 Access ways: remote-desktop-suf, onsite-suf  
 Generation details: This variable contains the open responses gathered on other motivations for a doctorate, which could not be assigned to the given categories, in coded form. Using the open responses (or based on lists already made from the answers of previous cohorts) a code list was created.  
 Panel Variables: afec03o\_g1r

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 2.6  
 Question text: How important are/were the following motivations for doing your PhD?  
 Other, please specify:

## 1.861 bocc221j\_g1v1r (1st job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc221j_g2v1d, bocc221j_g3v1   |
| Panel Variables:    | aocc221j_g1r, cocc221j_g1v1r  |

### Question<sup>2</sup>

|                  |   |
|------------------|---|
| Question number: | Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.3  |
| Question text:   | In the following we ask you for a more detailed description of the various occupations which you had in the year 2006 and thereafter. Please include work which began earlier if it continued in 2006.<br>Work location<br>Federal state or country (if abroad) |

**1.865 bocc221k\_g1v1d (1st job: location of work (NUTS-2))****Properties<sup>1</sup>**

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |

## 1.877 bocc222j\_g1v1r (2nd job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc222j_g2v1d, bocc222j_g3v1   |
| Panel Variables:    | aocc222j_g1r, cocc222j_g1v1r  |

## 1.881 bocc222k\_g1v1d (2nd job: location of work (NUTS-2))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |
| Derived variables:  | bocc222k_v1o  |
| Panel Variables:    | aocc222k_g1d, cocc222k_g1v2d  |

## 1.882 bocc222l (2nd job: company)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: nominal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Annotations: Self-employment was always coded in the same way, independently of how many times it appears in the occupation tableau.  
 Panel Variables: cocc222l

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.3  
 Question text: In the following we ask you for a more detailed description of the various occupations which you had in the year 2006 and thereafter. Please include work which began earlier if it continued in 2006.  
 Firm/company

## 1.893 bocc223j\_g1v1r (3rd job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc223j_g2v1d, bocc223j_g3v1   |
| Panel Variables:    | aocc223j_g1r, cocc223j_g1v1r  |

**1.897 bocc223k\_g1v1d (3rd job: location of work (NUTS-2))****Properties<sup>1</sup>**

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |

## 1.909 bocc224j\_g1v1r (4th job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc224j_g2v1d, bocc224j_g3v1   |
| Panel Variables:    | aocc224j_g1r, cocc224j_g1v1r  |

### Question<sup>2</sup>

|                  |   |
|------------------|---|
| Question number: | Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.3  |
| Question text:   | In the following we ask you for a more detailed description of the various occupations which you had in the year 2006 and thereafter. Please include work which began earlier if it continued in 2006.<br>Work location<br>Federal state or country (if abroad) |

## 1.913 bocc224k\_g1v1d (4th job: location of work (NUTS-2))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |
| Derived variables:  | bocc224k_v1o  |

## 1.925 bocc225j\_g1v1r (5th job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc225j_g2v1d, bocc225j_g3v1   |
| Panel Variables:    | aocc225j_g1r, cocc225j_g1v1r  |

**1.929 bocc225k\_g1v1d (5th job: location of work (NUTS-2))****Properties<sup>1</sup>**

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |

## 1.941 bocc226j\_g1v1r (6th job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc226j_g2v1d, bocc226j_g3v1   |
| Panel Variables:    | aocc226j_g1r, cocc226j_g1v1r  |

| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |

## 1.957 bocc227j\_g1r (7th job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc227j_g2d, bocc227j_g3   |
| Panel Variables:    | cocc227j_g1r  |

**1.961 bocc227k\_g1d (7th job: location of work (NUTS-2))****Properties<sup>1</sup>**

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |

## 1.973 bocc228j\_g1r (8th job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state and country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc228j_g2d, bocc228j_g3   |
| Panel Variables:    | cocc228j_g1r  |

### Question<sup>2</sup>

|                  |   |
|------------------|---|
| Question number: | Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.3  |
| Question text:   | In the following we ask you for a more detailed description of the various occupations which you had in the year 2006 and thereafter. Please include work which began earlier if it continued in 2006.<br>Work location<br>Federal state or country (if abroad) |

## 1.977 bocc228k\_g1d (8th job: location of work (NUTS-2))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |
| Derived variables:  | bocc228k_o  |
| Panel Variables:    | cocc228k_g1v1d  |

### Question<sup>2</sup>

## 1.989 bocc229j\_g1r (9th job: location of work (federal state/country))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | remote-desktop-suf, onsite-suf  |
| Generation details: | This variable contains the gathered open responses on federal state resp. country (for abroad) where the employment is located in coded form. For the coding of the federal states the Federal Statistical Office of Germany key of federal states (cf. cl-destatis-bundesland-1990) according to the Official Municipality Code (AGS) (with supplements, if not assignable) was used. The countries (for abroad) were coded using the project's own code list (cf. cl-dzhw-1). |
| Derived variables:  | bocc229j_g2d, bocc229j_g3   |
| Panel Variables:    | cocc229j_g1r  |

### Question<sup>2</sup>

|                  |   |

## 1.993 bocc229k\_g1d (9th job: location of work (NUTS-2))

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the employment location (gathered as 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |
| Derived variables:  | bocc229k_o  |
| Panel Variables:    | cocc229k_g1v1d  |

### Question<sup>2</sup>

**1.1017 bocc232v\_g1v1r (last job found: other, namely)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable contains the additional open responses gathered on other ways of finding a job with reference to the current position (Variable bocc232u\_v1), which could not be assigned to the given categories, in coded form. Using the open responses (or based on lists already made from the answers of previous cohorts) a code list was created.

Panel Variables: aocc232v\_g1r

**Question<sup>2</sup>**

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.4

Question text: How did you find your current or last job?  
Other, please specify

## 1.1035 bocc46b\_g1 (country where company headquarters located)

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: nominal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Generation details: This variable contains the gathered open country responses in coded form. Germany was given the code 19. For the coding of foreign country responses the project's own code list was used (cf. cl-dzhw-1).

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.8  
 Question text: Do you work in a company which also has sites abroad?  
 If yes: In which country is the company headquarters?

### Frequencies

| Value                  | Label                                 | Frequency    | Percentage (valid) | Percentage   |

## 1.1039 boccc262b\_g1v1r (form of company)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable contains the additional open responses gathered on the characteristics 10 "Other, please specify" of the Variable boccc262a\_v1 (company size) in coded form. Using the open responses (or based on lists already made from the answers of previous cohorts) a code list was created.

Note: Generally the open answers were assigned to the given categories on company size. They were only coded separately if instead of company size the company form was stated.

Panel Variables: aoccc262b\_g1r

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.10

Question text: To which of the following company sizes does your company/office belong?  
Other, please specify:

### Frequencies

## 1.1057 bocc48l (importance of learning methods: completed degree)

### Properties<sup>1</sup>

Data type: numeric

Scale level: ordinal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.13

Question text: How important are/were the following learning methods for your current work responsibilities?

My completed course of study

### Frequencies

## 1.1092 bocc292g (additional salary elements: fixed components)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 4.17

Question text: Which additional (gross) salary elements do you receive?  
Fixed salary components (e.g. Christmas bonus, holiday pay, 13th month's salary, shift bonus)

### Frequencies

## 1.1125 bfec15 (participation in further education at university)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

Annotations: This variable also contains the category 4 "no, no further information" in addition to the categories planned for the questionnaire.

This was assigned (and replaces the original response of the surveyed person) if in Question 5.2 an individual spell of study was falsely entered and had to be deleted (e.g. PhD which has already been surveyed).

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.1

Question text: Have you attended courses at university subsequent to your first graduation in the year 2004/05 that lead to an academic qualification (e.g. master's, diploma) or attended other qualification courses with a minimum duration of one semester (e.g. certificate courses, modules)?

### Frequencies

Annotations: In individual cases psychological-therapeutic additional trainings (PTZ) were reported. Thus the planned answer categories were supplemented by the categories 5 "started PTZ", 6 "already completed PTZ" and 7 "terminated PTZ", which were only assigned for PTZ participants.

If "no certification pursued" was stated for type of degree, the additional code 0 "no certification pursued" was assigned.

**1.1132 bfec161g\_g1o (1st further education at university: subject)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: onsite-suf

Generation details: This variable contains the gathered open subject responses in coded form. As code list the Federal Statistical Office Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) was used (cf. cl-destatis-studienfach-2005). Additionally the subject codes 47 ("nursing training") and 112 ("social psychology") were considered because they were contained in the data. They are old codes which have not existed since the key list 2003/2004 (code 47) and key list 1997/1998 (code 112).

Derived variables: bfec161g\_g2d, bfec161g\_g3

Descriptive statistics: Number of unique observations: 152; Modus (*h*): 21

### 1.1133 bfec161g\_g2d (1st further education at university: area of study)

#### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-suf, remote-desktop-suf, onsite-suf

Generation details: This variable was generated by aggregation from the coded subject responses for the purposes of anonymisation. For aggregation the assignment of the Federal Statistical Office of Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-studienfach-2005) was used.

For assignment of the older, not therein contained subject codes 47 ("nursing training" → STB: "social services") and 112 ("social psychology" → STB "psychology") the key list 2003/2004 (code 47) or the key list 1997/1998 (code 112) was used.

Derived variables: bfec161g\_g1o, bfec161g\_g3

#### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!

**1.1135 bfec161h\_g1a (1st further education at university: university)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: not-accessible

Generation details: This variable contains the gathered open university responses in coded form. As code list for German universities the Federal Statistical Office of Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) was used (cf. cl-destatis-hochschule-2005). To the list were added special codes for German universities which were only contained in older key lists, or responses which could not be assigned. Moreover special codes for foreign universities were introduced.

Derived variables: bfec161h\_g2, bfec161h\_g3o, bfec161h\_g4r, bfec161h\_g5

| Generation details: | <p>This variable was generated for the purposes of anonymisation by aggregation of the university variable. For aggregation the Federal Statistical Office in Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-hochschule-2005) was used. Thereafter the universities in Germany are differentiated into 6 types:</p> <ul style="list-style-type: none"> <li>universities</li> <li>colleges of education</li> <li>theological colleges/seminaries</li> <li>art colleges</li> <li>universities of applied sciences (not incl. technical universities of administration)</li> <li>technical universities of administration</li> </ul> <p>These types were aggregated again to the categories "university" and "university of applied sciences". The variable generated possesses the characteristics 1 "university" if dealing with a university, college of education, theological college/seminary or art college. It possesses the characteristics 2 "university of applied sciences" if dealing with a university of applied sciences or technical university of administration.</p> <p>For universities whose type could not be defined (this applies to universities abroad and other German universities), the Missing Value -966 "non-determinable" was assigned.</p> |
| Derived variables:  | bfec161h_g1a, bfec161h_g3o, bfec161h_g4r, bfec161h_g5   |

[Table 1125/Variable values bfec161h\\_g3o](#)

## 1.1138 bfec161h\_g4r (1st further education at university: location of university (federal states))

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable was generated for the purposes of anonymisation by aggregation of the university variable. For aggregation the assignment of the Federal Statistical Office in Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-hochschule-2005) was used.

If no concrete university was stated, but only the information that it was a German university, the code 21 "Germany without further information" was assigned. Universities abroad received the code 22 "abroad".

Derived variables: bfec161h\_g1a, bfec161h\_g2, bfec161h\_g3o, bfec161h\_g5

## 1.1140 bfec161i (1st further education at university: type of degree)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

Annotations: Since the category 4 was assigned twice in the questionnaire (for graduate diploma/master's ("Magister") or for state examination) it was checked using the other responses in the questionnaire exactly which type of degree was involved. If the degree was unambiguously identified as a graduate diploma or master's, the category 4 was retained. For unambiguous completed state examination qualifications, the code 7 was assigned. Doubtful cases received the code 8.

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!  
Qualification aimed for or achieved

**1.1141 bfec161j\_g1r (1st further education at university: other qualification)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable contains the additional open responses gathered on the characteristics 6 "other completed course of study" of the Variable bfec161i (type of qualification), which could not be assigned to the given categories, in coded form. Using the open responses (or based on lists already made from the answers of previous cohorts) a code list was created.

Annotations: In individual cases psychological-therapeutic additional trainings (PTZ) were reported. Thus the planned answer categories were supplemented by the categories 5 "started PTZ", 6 "already completed PTZ" and 7 "terminated PTZ", which were only assigned for PTZ participants.

If "no certification pursued" was stated for type of degree, the additional code 0 "no certification pursued" was assigned.

**Question<sup>2</sup>**

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!

**1.1150 bfec162g\_g1o (2nd further education at university: subject)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: onsite-suf

Generation details: This variable contains the gathered open subject responses in coded form. As code list the Federal Statistical Office of Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) was used (cf. cl-destatis-studienfach-2005). Additionally the subject codes 47 ("nursing training") and 112 ("social psychology") were considered because they were contained in the data. They are old codes which have not existed since the key list 2003/2004 (code 47) and key list 1997/1998 (code 112).

Derived variables: bfec162g\_g2d, bfec162g\_g3

## 1.1151 bfec162g\_g2d (2nd further education at university: area of study)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-suf, remote-desktop-suf, onsite-suf

Generation details: This variable was generated by aggregation from the coded subject responses for the purposes of anonymisation. For aggregation the assignment of the Federal Statistical Office of Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-studienfach-2005) was used.

For assignment of the older, not therein contained subject codes 47 ("nursing training" → STB: "social services") and 112 ("social psychology" → STB "psychology") the key list 2003/2004 (code 47) or the key list 1997/1998 (code 112) was used.

Derived variables: bfec162g\_g1o, bfec162g\_g3

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

**1.1153 bfec162h\_g1a (2nd further education at university: uni)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: not-accessible

Generation details: This variable contains the gathered open university responses in coded form. As code list for German universities the Federal Statistical Office of Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) was used (cf. cl-destatis-hochschule-2005). To the list were added special codes for German universities which were only contained in older key lists, or responses which could not be assigned. Moreover special codes for foreign universities were introduced.

Derived variables: bfec162h\_g2, bfec162h\_g3o, bfec162h\_g4r, bfec162h\_g5

**Question<sup>2</sup>**

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!  
Name of university

**1.1154 bfec162h\_g2 (2nd further education at university: type of uni)****Properties<sup>1</sup>**

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | download-cuf, download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | <p>This variable was generated for the purposes of anonymisation by aggregation of the university variable. For aggregation the Federal Statistical Office in Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-hochschule-2005) was used. Thereafter the universities in Germany are differentiated into 6 types:</p> <ul style="list-style-type: none"> <li>universities</li> <li>colleges of education</li> <li>theological colleges/seminaries</li> <li>art colleges</li> <li>universities of applied sciences (not incl. technical universities of administration)</li> <li>technical universities of administration</li> </ul> <p>These types were aggregated again to the categories "university" and "university of applied sciences". The variable generated possesses the characteristics 1 "university" if dealing with a university, college of education, theological college/seminary or art college. It possesses the characteristics 2 "university of applied sciences" if dealing with a university of applied sciences or technical university of administration.</p> <p>For universities whose type could not be defined (this applies to universities abroad and other German universities), the Missing Value -966 "non-determinable" was assigned.</p> |
| Derived variables:  | bfec162h_g1a, bfec162h_g3o, bfec162h_g4r, bfec162h_g5   |

[Table 1142/variable values bfec162h\\_g3o](#)

## 1.1156 bfec162h\_g4r (2nd further education at university: location of uni (federal states))

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable was generated for the purposes of anonymisation by aggregation of the university variable. For aggregation the assignment of the Federal Statistical Office in Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-hochschule-2005) was used.

If no concrete university was stated, but only the information that it was a German university, the code 21 "Germany without further information" was assigned. Universities abroad received the code 22 "abroad".

Derived variables: bfec162h\_g1a, bfec162h\_g2, bfec162h\_g3o, bfec162h\_g5

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!

## 1.1157 bfec162h\_g5 (2nd further education at university: location of uni (new or old fed. states))

### Properties<sup>1</sup>

Data type: numeric  
 Scale level: nominal  
 Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf  
 Generation details: This variable was generated for the purposes of anonymisation by aggregation of the variable on federal state of the university. For details cf. the generation rule.  
 Derived variables: bfec162h\_g1a, bfec162h\_g2, bfec162h\_g3o, bfec162h\_g4r

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2  
 Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!

**1.1158 bfec162i (2nd further education at university: type of degree)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

Annotations: Since the category 4 was assigned twice in the questionnaire (for graduate diploma/master's ("Magister") or for state examination) it was checked using the other responses in the questionnaire exactly which type of degree was involved. If the degree was unambiguously identified as a graduate diploma or master's, the category 4 was retained. For unambiguous completed state examination qualifications, the code 7 was assigned. Doubtful cases received the code 8.

**Question<sup>2</sup>**

## 1.1159 bfec162j\_g1r (2nd further education at university: other qualification)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable contains the additional open responses gathered on the characteristics 6 "other completed course of study" of the Variable bfec162i (type of qualification), which could not be assigned to the given categories, in coded form. Using the open responses (or based on lists already made from the answers of previous cohorts) a code list was created.

### Question<sup>2</sup>

Annotations: In individual cases psychological-therapeutic additional trainings (PTZ) were reported. Thus the planned answer categories were supplemented by the categories 5 "started PTZ", 6 "already completed PTZ" and 7 "terminated PTZ", which were only assigned for PTZ participants.

If "no certification pursued" was stated for type of degree, the additional code 0 "no certification pursued" was assigned.

## 1.1168 bfec163g\_g1o (3rd further education at university: subject)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: onsite-suf

Generation details: This variable contains the gathered open subject responses in coded form. As code list the Federal Statistical Office Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) was used (cf. cl-destatis-studienfach-2005). Additionally the subject codes 47 ("nursing training") and 112 ("social psychology") were considered because they were contained in the data. They are old codes which have not existed since the key list 2003/2004 (code 47) and key list 1997/1998 (code 112).

Derived variables: bfec163g\_g2d, bfec163g\_g3

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!  
Subject/field of study

**1.1169 bfec163g\_g2d (3rd further education at university: area of study)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: download-suf, remote-desktop-suf, onsite-suf

Generation details: This variable was generated by aggregation from the coded subject responses for the purposes of anonymisation. For aggregation the assignment of the Federal Statistical Office of Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-studienfach-2005) was used.

For assignment of the older, not therein contained subject codes 47 ("nursing training" → STB: "social services") and 112 ("social psychology" → STB "psychology") the key list 2003/2004 (code 47) or the key list 1997/1998 (code 112) was used.

Derived variables: bfec163g\_g1o, bfec163g\_g3

**1.1171 bfec163h\_g1a (3rd further education at university: uni)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: not-accessible

Generation details: This variable contains the gathered open university responses in coded form. As code list for German universities the Federal Statistical Office of Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) was used (cf. cl-destatis-hochschule-2005). To the list were added special codes for German universities which were only contained in older key lists, or responses which could not be assigned. Moreover special codes for foreign universities were introduced.

Derived variables: bfec163h\_g2, bfec163h\_g3o, bfec163h\_g4r, bfec163h\_g5

**Question<sup>2</sup>**

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!  
Name of university

<sup>1</sup> More detailed information on the variable can be found at [https://metadata.fdz.dzhw.eu/#!/en/variables/var-gra2005-ds1-bfec163h\\_g1a\\$](https://metadata.fdz.dzhw.eu/#!/en/variables/var-gra2005-ds1-bfec163h_g1a$)

**1.1172 bfec163h\_g2 (3rd further education at university: type of uni)****Properties<sup>1</sup>**

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | nominal   |
| Access ways:        | download-cuf, download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | <p>This variable was generated for the purposes of anonymisation by aggregation of the university variable. For aggregation the Federal Statistical Office in Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-hochschule-2005) was used. Thereafter the universities in Germany are differentiated into 6 types:</p> <ul style="list-style-type: none"> <li>universities</li> <li>colleges of education</li> <li>theological colleges/seminaries</li> <li>art colleges</li> <li>universities of applied sciences (not incl. technical universities of administration)</li> <li>technical universities of administration</li> </ul> <p>These types were aggregated again to the categories "university" and "university of applied sciences". The variable generated possesses the characteristics 1 "university" if dealing with a university, college of education, theological college/seminary or art college. It possesses the characteristics 2 "university of applied sciences" if dealing with a university of applied sciences or technical university of administration.</p> <p>For universities whose type could not be defined (this applies to universities abroad and other German universities), the Missing Value -966 "non-determinable" was assigned.</p> |
| Derived variables:  | bfec163h_g1a, bfec163h_g3o, bfec163h_g4r, bfec163h_g5   |

**1.1174 bfec163h\_g4r (3rd further education at university: location of uni (federal states))****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable was generated for the purposes of anonymisation by aggregation of the university variable. For aggregation the assignment of the Federal Statistical Office in Germany Key List of Student and Examination Statistics (Winter Semester 2004/05 and Summer Semester 2005) (cf. cl-destatis-hochschule-2005) was used.

If no concrete university was stated, but only the information that it was a German university, the code 21 "Germany without further information" was assigned. Universities abroad received the code 22 "abroad".

Derived variables: bfec163h\_g1a, bfec163h\_g2, bfec163h\_g3o, bfec163h\_g5

**Question<sup>2</sup>**

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 5.2

Question text: Please enter these longer-term courses which you started, continued or completed after your graduation (also the ones that you discontinued or interrupted) in the following tableau!

**1.1176 bfec163i (3rd further education at university: type of degree)****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

Annotations: Since the category 4 was assigned twice in the questionnaire (for graduate diploma/master's ("Magister") or for state examination) it was checked using the other responses in the questionnaire exactly which type of degree was involved. If the degree was unambiguously identified as a graduate diploma or master's, the category 4 was retained. For unambiguous completed state examination qualifications, the code 7 was assigned. Doubtful cases received the code 8.

**Question<sup>2</sup>**

## 1.1268 bfvt082b (scope (further education outside university): multi-day up to 20 hours (no.))

### Properties<sup>1</sup>

Data type: numeric

Scale level: ratio

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 6.7

Question text: In what form and to what extent have you participated in professional training outside of university since your graduation in 2004/05?

Multi-day events with a time expenditure of up to 20 hours (e.g. weekend/block seminar)

Total (approx.):

## 1.1272 bfvt084b (scope (further education outside university): longer term 40-100 hours (no.))

### Properties<sup>1</sup>

Data type: numeric

Scale level: ratio

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 6.7

Question text: In what form and to what extent have you participated in professional training outside of university since your graduation in 2004/05?

Longer-term further education with a time expenditure of over 40 up to 100 hours (e.g. multi-week/-month full-/part-time further education)

Total (approx.):

## 1.1321 bdem11\_g1 (number of children)

### Properties<sup>1</sup>

|                     |   |
|---------------------|---|
| Data type:          | numeric   |
| Scale level:        | ratio   |
| Access ways:        | download-cuf, download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generally generated using the stated dates of birth of the children. Sometimes however the surveyed persons stated the number of children without giving a response on the dates of birth. Furthermore children who are known to have died are not listed here. |
| Panel Variables:    | adem11_g1   |

### Question<sup>2</sup>

|                  |  |
|------------------|--|
| Question number: | Questionnaire of the DZHW Graduate Panel 2005 (second wave): 8.5 |
| Question text:   | When were your children born?                                    |

### Frequencies

## 1.1322 bdem17 (desire to have children)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

Annotations: This variable also contains the category 6 "pending birth" in addition to the categories planned for the questionnaire. This was assigned if it could be inferred from the remaining data that the surveyed person was expecting a child. The response was replaced.

Panel Variables: cdem17

### Question<sup>2</sup>

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 8.6

Question text: Do you want to have children/another child/more children in the future?

### Frequencies

**1.1329 bdem19b\_g2r (country of birth (according to NEPS categories (adjusted)))****Properties<sup>1</sup>**

Data type: numeric

Scale level: nominal

Access ways: remote-desktop-suf, onsite-suf

Generation details: This variable was generated for the purposes of anonymisation by aggregation of the variable "country of birth (abroad)". For aggregation the project's own code list (based on the country classification of the NEPS for the start cohort 5, but with adaptations for the European countries) was used (cf. cl-dzhw-1). For details cf. the generation rule.

Derived variables: bdem19b\_g1o, bdem19b\_g3d

**Question<sup>2</sup>**

Question number: Questionnaire of the DZHW Graduate Panel 2005 (second wave): 8.8

Question text: Were you born in Germany?

Descriptive statistics: Number of unique observations: 653; Modus (*h*): 904

**1.1340 bdem231c\_g1d (current main residence: NUTS-2)****Properties<sup>1</sup>**

Data type: string

Scale level: nominal

Access ways: download-suf, remote-desktop-suf, onsite-suf

Generation details: This variable was generated for the purposes of anonymisation from the residential location (represented by 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "966 non-determinable" was assigned.

Derived variables: bdem231c\_g2, bdem231c\_o

|                     |  |
|---------------------|--|
| Data type:          | string   |
| Scale level:        | nominal  |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf   |
| Generation details: | This variable was generated for the purposes of anonymisation from the residential location (represented by 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "966 non-determinable" was assigned. |
| Derived variables:  | bdem232c_g2, bdem232c_o  |

**1.1354 bdem233c\_g1d (2nd previous main residence: NUTS-2)****Properties<sup>1</sup>**

|                     |  |
|---------------------|--|
| Data type:          | string   |
| Scale level:        | nominal  |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf   |
| Generation details: | This variable was generated for the purposes of anonymisation from the residential location (represented by 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "966 non-determinable" was assigned. |
| Derived variables:  | bdem233c_g2, bdem233c_o  |

**1.1361 bdem234c\_g1d (3rd previous main residence: NUTS-2)****Properties<sup>1</sup>**

|                     |  |
|---------------------|--|
| Data type:          | string   |
| Scale level:        | nominal  |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf   |
| Generation details: | This variable was generated for the purposes of anonymisation from the residential location (represented by 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "966 non-determinable" was assigned. |
| Derived variables:  | bdem234c_g2, bdem234c_o  |

**1.1368 bdem235c\_g1d (4th previous main residence: NUTS-2)****Properties<sup>1</sup>**

|                     |   |
|---------------------|---|
| Data type:          | string  |
| Scale level:        | nominal   |
| Access ways:        | download-suf, remote-desktop-suf, onsite-suf  |
| Generation details: | This variable was generated for the purposes of anonymisation from the residential location (represented by 3 digit postcode). For aggregation the NUTS classification of the Statistical Office of the European Union (Eurostat) from 2010 was used (cf. cl-eurostat-nuts-2010). The assignment of the 3 digit postcodes to the NUTS-2-Regions was made using a self-generated list (cf. cl-dzhw-5). If the 3 digit postcode could not be unambiguously assigned to a NUTS-2-Region, the Missing Value "-966 non-determinable" was assigned. |
| Derived variables:  | bdem235c_g2, bdem235c_o   |

## 1.1377 bsys02 (type of questionnaire)

### Properties<sup>1</sup>

Data type: numeric

Scale level: nominal

Access ways: download-cuf, download-suf, remote-desktop-suf, onsite-suf

Annotations: Since a (small) number of questionnaires were sent to the surveyed persons by email or made available by download, these completed questionnaires were marked.

### Question

No question is assigned to this variable.
