1 Variables

1.1 pid (Case number (randomized))

Properties¹

Data type: numeric

Scale level: nominal

Access ways: SUF: On-Site, SUF: Remote-Desktop, SUF: Download, CUF: Download

Generation details: randomised numbering of cases

Question

No question is assigned to this variable.

¹ More detailed information on the variable can be found at <https://metadata.fdz.dzhw.eu/#!/en/variables/var-sid2021-ds1-pid>

1.2 hs_cluster_id (University current studies: university (randomized))

Properties¹

Data type:	numeric
Scale level:	nominal
Access ways:	SUF: On-Site
Generation details:	randomised numbering of higher education identifiers (hs-p-g1) for clustering of respondents
Derived variables:	hs_p_g4, hs_p_g1, hs_p_g3, hs_p_g2

Question

No question is assigned to this variable.

1.101 hstraeger_preload_p (University current studies: responsible body (Trägerschaft))

Properties¹

Data type: numeric

Scale level: nominal

Access ways: SUF: On-Site

Generation details: Recoding (performed by SiD project) of the university of current studies into responsible bodies according to the Destatis key list of student and examination statistics, doctoral candidates statistics WS 2020/2021 and SS 2021. Variable was based on the preloads of institutions respondents were initially contacted by. Afterwards this information was - if applicable - updated based on the responses in question A_15.

Question²

Question number: Questionnaire of "The Student Survey in Germany (2021)": E4_6

Question text: The following section deals with salary differences between graduates of different areas of study and whether you feel that these differences are justified.

Graduates in medicine earn on average about €53,000 a year (gross annual full-time salary) when they enter the job market. By contrast, graduates in the engineering earn on average about €47,500 a year.

To what extent do you think it is justified that graduates in the fields of medicine earn more than graduates in the engineering right after graduation?

Question²

Question number: Questionnaire of "The Student Survey in Germany (2021)": E4_8

Question text: It is not always easy to find a job after graduation. Apart from legitimate reasons for being turned down (e.g. applicant profile does not fit the job), discrimination can also be a contributing factor. Discrimination means that a person is treated worse than other people without any factual justification.

In your opinion, what are the reasons for this discrimination?

No
